To Whom It May Concern:

This letter is written in support of the Pip Start's Master Builder Program. As Mayor Pro Tem of the City of Austin, I recognize the need of this program in Austin and Central Texas. From the results, Master Builder has been able to achieve increased math knowledge and TAKS scores, increased character understanding and behavior, and increased science applications and awareness. This has been achieved for a diverse group of locations and youth throughout Austin, Texas from public schools and churches, to apartment complexes and community centers.

I encourage you to financially and collaboratively support Pip Start's Master Builder Program.

Sincerely,

Danny Thomas
Mayor Pro Tem, Place 6
