To Whom It May Concern:

The services you provide through the Master Builder Program to elementary and middle school students are of great interest to our community, our congregation and me. I am the Pastor of the Redeemed Christian Church of God Salvation Center in Austin Texas. We have commitment to serve the youth in our neighborhood with programs which encourage, educate and prepare youth positively contribute to society. The purpose of this program is to prepare our students for rigorous high school courses required for college; the students in our neighborhood are typically those who are African American and Hispanic from lower-income families and are currently under-represented in colleges today. I would like to see the students in our neighborhood be provided with experiences of the Master Builder hands-on mathematics, science and character program so that they might consider related careers in the future, improve their academics and strengthen their character.

Unfortunately, our program has a bare bones budget and we simply do not have the means to pay for the Master Builder Program to be offered to the very deserving students in our neighborhood. In addition, our students come from some of Austin's poorest neighborhoods and most of them certainly could not pay a fee to participate. Unless outside funds were made available to allow our students to access this valuable program, the youth in our very deserving neighborhood would be unable to participate in the Master Builder Program, having to forgo this useful and relevant program for our youth. We are willing to partner with Pip Start and donate the space needed for the Master Builder Program (no cost to the participating youth) in Northeast Austin Texas.

Please fund and support the Master Builder Program for North East Austin Texas. You may contact me at 371-9293.

Sincerely,

Doyin Oke, Pastor  
Redeemed Christian Church of God Salvation Center
